INDEPENDENT AUDITORS' REPORT

December 10, 2008

To the Authority Board City of Evart - Downtown Development Authority Evart, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the City of Evart - Downtown Development Authority, Evart, Michigan, a component unit of the City of Evart, Michigan as of and for the year ended June 30, 2008, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Evart - Downtown Development Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the City of Evart - Downtown Development Authority as of June 30, 2008, and the respective changes in financial position thereof for the year then ended, in conformity with U.S. generally accepted accounting principles.

To the Authority Board City of Evart - Downtown Development Authority December 10, 2008

The management's discussion and analysis and budgetary comparison listed in the table of contents are not a required part of the basic financial statements but is supplemental information required by U.S. generally accepted accounting principles and the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Evart - Downtown Development Authority's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Weinlander Fitzhugh

Management's Discussion and Analysis For the Year Ended June 30, 2008

Our discussion and analysis of the City of Evart - Downtown Development Authority's (Authority) financial performance provides an overview of the Authority's financial activities for the fiscal year ended June 30, 2008.

Financial Highlights

The Authority's net assets increased by \$72,510. Program revenues were \$29,419 or 17% of total revenues and general revenues were \$147,481 or 83%.

Using this Annual Financial Report

This annual financial report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand City of Evart - Downtown Development Authority financially as a whole. The *Government-wide Financial Statements* provide information about the activities of the whole Authority, presenting both an aggregate view of the Authority's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For Governmental activities, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements look at the Authority's operations in more detail than the Government-wide financial statements by providing information about the Authority's most significant funds – the General, the 2003 General Obligation Bond and the 1993 Special Assessment Bond Funds with the other fund presented in one column as a nonmajor fund. The following summarizes the presentation included in this annual financial report.

Management's Discussion and Analysis (MD&A) (Required Supplemental Information)

Management's Discussion and Analysis For the Year Ended June 30, 2008

Reporting the Authority as a Whole

The Statement of Net Assets and Statement of Activities

One of the most important questions asked about the Authority's finances is, "Is the Authority better or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information about the Authority as a whole and about its activities in a manner that helps to answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector companies. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the Authority's net assets as a way to measure the Authority's financial position. The change in net assets provides the reader a tool to assist in determining whether the Authority's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base and facility conditions in arriving at their conclusion regarding the overall health of the Authority.

Reporting the Authority's Most Significant Funds

Fund Financial Statements

The Authority's fund financial statements provide detail information about the most significant funds – not the Authority as a whole. Some funds are required to be established by State law. Other funds are established to help it control and manage money for particular purposes or to meet legal responsibilities for using certain taxes, grants and other sources of revenue.

Governmental Funds

All of the Authority's activities are reported in Governmental funds, which focus on how money flows into and out of those funds and the balances remaining at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detail short-term view of the Authority's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources available to spend in the near future to finance the Authority's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

Management's Discussion and Analysis For the Year Ended June 30, 2008

Government-wide Financial Analysis

The statement of net assets provides the perspective of the Authority as a whole. Exhibit A provides a summary of the Authority's net assets as of June 30, 2008 and 2007.

Exhibit A	Govern Activ	
	2008	2007
Assets		
Current and other assets	\$ 177,614	\$ 140,538
Capital assets - net of accumulated		
depreciation	51,747	53,689
Total assets	229,361	194,227
Liabilities		
Current liabilities	112,412	119,788
Long-term liabilities	130,000	160,000
Total liabilities	242,412	279,788
Net Assets		
Invested in property and equipment	(109,093)	(152,445)
Restricted	32,669	34,031
Unrestricted	63,373	32,853
Total net assets	\$ (13,051)	\$ (85,561)

Management's Discussion and Analysis For the Year Ended June 30, 2008

This analysis focuses on net assets. The Authority's net assets were \$(13,051) at June 30, 2008. Capital assets, net of related debt, totaling \$(109,093) compares the original costs, less depreciation of the Authority's capital assets to long-term debt used to finance the acquisition of those assets. The 2003 General Obligation Bond Fund will be repaid from property taxes collected for operations.

The \$63,373 in unrestricted net assets of governmental type activities represents the *accumulated* results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of this year's operations for the Authority as a whole are reported in the statement of activities. Exhibit B below is a summary of the changes in net assets for the years ended June 30, 2008 and 2007.

Governmental

	Governmental						
Exhibit B		Activ					
		2008	2007				
Revenue							
Program revenue:							
Grants and contributions	\$	29,419	\$	19,736			
General revenue:							
Taxes		140,540		130,909			
Interest		6,941		9,918			
Total revenue		176,900		160,563			
Function/Program Expenses							
General government		49,426		52,559			
Community promotion		43,972		51,984			
Community improvements		10,992		5,793			
Total expenses		104,390		110,336			
Change in Net Assets	\$	72,510	\$	50,227			

Management's Discussion and Analysis For the Year Ended June 30, 2008

As reported in the statement of activities, the cost of all of our *Governmental type* activities this year was \$104,390. Certain activities were partially funded from organizations that subsidized certain programs with grants and contributions. We paid for the remaining "public benefit" portion of our governmental activities with \$140,540 in taxes and \$6,941 in interest revenues.

The Authority experienced an increase in net assets of \$72,510. The net assets increased due to increased taxes and Musical grants and contribution revenues. The Authority also had a decrease in general government and community promotion spending. The increase in net assets differs from the change in fund balance and a reconciliation appears in the financial statements.

The Authority's Funds

The Authority uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the Authority is being accountable for the resources taxpayers and others provide to it and may provide more insight into the Authority's overall financial health.

The Authority's governmental funds reported a combined fund balance of \$90,725, which is higher than last year's total of \$60,522. The schedule below indicates the fund balance and the total change in fund balances as of June 30, 2008 and 2007.

	Fund Balance June 30, 2008					Increase (Decrease)		
General Debt service	\$	58,056 32,669	\$	26,490 34,032	\$	31,566 (1,363)		
Total	\$	90,725	\$	60,522	\$	30,203		

- Our General Fund increased \$31,566. The increase was due to increased tax and Musical grant and contribution revenues. The Authority also had a decrease in general government and community promotion spending.
- Our Debt Service Funds decreased \$1,363. The decrease is due to payment of scheduled debt requirements.

Management's Discussion and Analysis For the Year Ended June 30, 2008

As the graph below illustrates, the largest portion of the Authority's revenue is derived from property tax revenue.

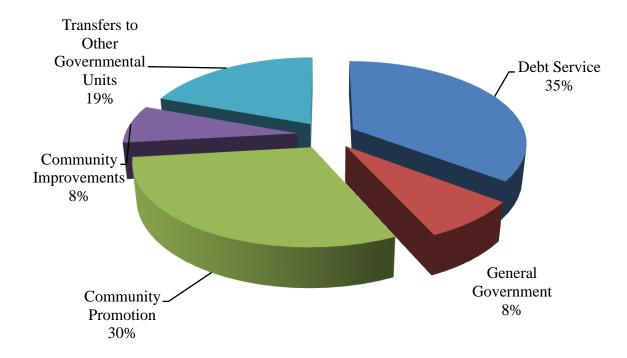

Revenues

Management's Discussion and Analysis For the Year Ended June 30, 2008

The graph below illustrates, 38% of the Authority's resources are spent on community promotion and improvements. Another 35% is spent on the payment of debt, while 27% is spent for general government and expenses such as administrative costs, including occupancy costs.

Expenditures

The chart below compares current year expenditures with prior year.

	2008	2007
Expenditures by Function		
General government	\$ 11,486	\$ 17,672
Community promotion	43,972	51,984
Community improvements	10,992	5,793
Debt service	51,893	53,798
Transfers to other governmental units	28,354	22,945
Total	\$146,697	\$152,192

Expenditures are down by \$5,495 or 4% from the prior year mostly due to reduction in expenditures for the Downtown Musical and a decrease in other capital project expenditures.

Management's Discussion and Analysis For the Year Ended June 30, 2008

General Fund Budgetary Highlights

Over the course of the year, the Authority revises its budget to reflect changes in revenues and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. A schedule showing the Authority's original and final budget amounts compared with amounts actually paid and received is provided in required supplemental information of these financial statements.

The differences between the budget and actual amounts are as follows:

- The final revenue budget was \$22,000 more than the original revenue budget. This was due to increases in property tax revenue and the Musical Arts Council grant.
- The final expenditure budget and original expenditure budget did not change significantly.
- Actual revenues and budgeted revenues were not significantly different.
- Actual expenditures were under the budgeted expenditures by \$14,165. The difference is due to a decrease in all categorical expenditures, primarily, community promotion and improvements. The Authority did not purchase any land in the current year as originally budgeted.

Management's Discussion and Analysis For the Year Ended June 30, 2008

Capital Assets

At June 30, 2008, the Authority had \$51,747 invested in a broad range of capital assets, including land, buildings, furniture, and equipment. There were no additions to capital assets during the current year.

	2008	2007		
Land	\$ 11,100	\$	11,100	
Building improvements	62,000		62,000	
Furniture and fixtures	9,000		9,000	
Total capital assets	82,100		82,100	
Less accumulated depreciation	 30,353		28,411	
Net capital assets	\$ 51,747	\$	53,689	

We anticipate no major changes in capital assets in the upcoming fiscal year. We present more detailed information about our capital assets in the notes to the financial statements.

<u>Debt</u>

At the end of this year, the Authority had \$160,000 in long-term debt outstanding versus \$205,000 in the previous year – a change of 22%. This long-term debt consisted of the following:

	2008	 2007
Bonds	\$ 160,000	\$ 205,000

Management's Discussion and Analysis For the Year Ended June 30, 2008

Factors Expected to Have an Effect on Future Operations

We expect to see an increase in property tax revenue next year as the tax base continues to be adjusted upward.

Requests For Information

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in the City of Evart - Downtown Development Authority. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balance of Governmental Funds to the Statement of Activities <u>For the Year Ended June 30, 2008</u>

Net change in fund balance - total governmental funds	\$ 30,203
Amounts reported for governmental activities in the statement	
of activities are different because:	
Repayment of the bond principal is an expenditure in the	
governmental funds, but the repayment reduces long-term liabilities	
in the statement of net assets.	
Repayment of bonds	45,000
Governmental funds report capital outlays as expenditures;	
in the statement of activities, these costs are allocated	
over their estimated useful lives as depreciation	
Amortization expense	(1,046)
Depreciation expense	(1,942)
Interest expense is recorded in the statement of activities when	
incurred; it is not reported in governmental funds until paid	 295
Change in net assets of governmental activities	\$ 72,510

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Evart - Downtown Development Authority conform to U.S. generally accepted accounting principles as applicable to governmental units. The following is a summary of the significant accounting policies used by the City of Evart - Downtown Development Authority:

Reporting Entity

On July 29, 1984, the City Council of the City of Evart, Osceola County, Michigan, established a Downtown Development Authority (Authority) to provide necessary infrastructure services to the downtown area, to create a positive surrounding, and to promote and attract additional business growth within the Downtown Development Authority boundaries. The life of the Authority is thirty years, after which time all assets acquired revert back to the City of Evart. The agreement was amended June 10, 1993, to extend the life of the Authority to the year 2023. The Authority is a component unit of the City of Evart.

The Authority is governed by a nine-member appointed board.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. The effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

CITY OF EVART – DOWNTOWN DEVELOPMENT AUTHORITY Notes to Financial Statements

For the Year Ended June 30, 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue in the current fiscal period. All other revenue items are considered to be available only when cash is received by the Authority.

The Authority reports the following major governmental funds:

General Fund – This fund is the general operating fund of Authority. It is used to account for all financial transactions except those required to be accounted for in another fund.

2003 General Obligation Debt Fund – This fund is used to account for the accumulated resources for, and the payment of, general long-term principal, interest and related costs.

1993 Special Assessment Debt Fund – This fund is used to account for the accumulated resources for, and the payment of, general long-term principal, interest and related costs.

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Assets or Equity

<u>Cash and Investments</u> – Cash and investments are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

<u>Receivables and Payables</u> – In general, outstanding balances between funds are reported as "due to/from other funds."

All trade and property tax receivables are shown as net of allowance for uncollectible amounts. Property taxes are levied on each December 1st on the taxable valuation of property as of the preceding December 31st. Taxes are considered delinquent on March 1st of the following year, at which time penalties and interest are assessed.

<u>Capital Assets</u> – Capital assets, which include land, buildings, furniture and fixtures are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the Authority as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of 5 years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add value or materially extend asset lives are not capitalized.

Buildings and equipment are depreciated using the straight-line method over the following useful lives:

Buildings 40 Years
Building improvements 15 to 20 Years
Furniture and fixtures 5 to 20 Years

<u>Long-term Obligations</u> – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period.

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

<u>Fund Equity</u> – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

<u>Use of Estimates</u> – The process of preparing the basic financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 2 - BUDGETS

The State of Michigan adopted a Uniform Budgeting and Accounting Act (Act) applicable to all local governmental entities in the state. The law requires appropriation acts to be adopted for the General Fund prior to the expenditure of monies in a fiscal year.

- 1. The Authority's Project Consultant submits to the Board a proposed budget prior to July 1 of each year. The budget includes proposed expenditures and the means of financing them.
- 2. Budgeted amounts are as originally adopted, or as amended, by the Board throughout the year. Individual amendments were not material in relation to the original appropriations. Budgets are adopted to the functional level.
- 3. Appropriations lapse at year end and therefore cancel all encumbrances. These appropriations are re-established at the beginning of the following year.

During the year ended June 30, 2008, the Authority incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated as follows:

Fund/Function	Total <u>Appropriations</u>		nount of enditures	Budget <u>Variance</u>		
General Fund: Basic programs	\$	26,000	\$ 28,354	\$	(2,354)	

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 3 – DEPOSITS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the local governmental unit to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The local unit is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rates within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. The Authority's deposits are in accordance with statutory authority.

At year-end, the Authority's deposits were reported in the basic financial statements in the following categories:

	G	Governmenta		
		Activities		
Cash and cash equivalents	_\$;	163,526	

Custodial Credit Risk-Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. As of June 30, 2008, \$48,505 of the Authority's bank balance of \$169,884 was exposed to custodial credit risk.

The Authority's investment policy does not identify interest rate risk, foreign currency risk or concentration credit risk.

The Authority has no investments as of June 30, 2008.

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 4 – CAPITAL ASSETS

Capital asset activity of the Authority for the current year was as follows:

	Balance				Disposals		Balance	
	July 1,				and		June 30,	
		2007	A	dditions	Adjust	ments		2008
Governmental Activities								
Capital assets not being depreciated:								
Land	\$	11,100	\$	0	\$	0	\$	11,100

Furniture and fixtures		9,000		0		0		9,000
Subtotal		28,411		1,942		0		30,353
Net capital assets being depreciated		42,589		(1,942)		0		40,647
Governmental Activities, Total								
Capital Assets - Net of Depreciation	\$	53,689	\$	(1,942)	\$	0	\$	51,747

Depreciation expense was charged to programs of the Authority as follows:

Governmental Activities:

General government \$ 1,942

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 5 – INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS

A summary of interfund receivables and payables and interfund transfers at June 30, 2008 is as follows:

<u>Fund</u>	Receivables		Payables		Tra	nsfers In	Transfers Out		
General Debt service	\$	0 978	\$	978 0	\$	0 35,985	\$	35,985 0	
	\$	978	\$	978	\$	35,985	\$	35,985	

Interfund balances and transfers are used to support funding for debt service.

NOTE 6 – LONG-TERM DEBT

Long-term debt activity is summarized as follows:

	Balance			Re	tirements		Balance	A	Amount
	July 1,				and		June 30,	Dι	ue Within
	2007	Addi	tions	Ad	Adjustments		2008		ne Year
Bonds	\$ 205,000	\$	0	_\$_	45,000	\$	160,000	_\$_	30,000

Bonds payable at June 30, 2008 is comprised of the following issues:

\$300,000 General Obligation Bonds due in annual installments of \$25,000 to \$35,000 through May 1, 2013, interest at of 3.15%

\$ 160,000

Notes to Financial Statements For the Year Ended June 30, 2008

NOTE 6 – LONG-TERM DEBT (CONTINUED)

The annual requirements to amortize bonds outstanding as of June 30, 2008 including interest payments are as follows:

Year End June 30	F	Principal		nterest		Total
2009	\$	30,000	\$	5,040		\$ 35,040
2010		30,000		4,095		34,095
2011		30,000		3,150		33,150
2012		35,000		2,205		37,205
2013		35,000		1,103		36,103
Total	\$	160,000	\$	15,593	_:	\$ 175,593

NOTE 7 – RISK MANAGEMENT

The Authority is exposed to various risks of loss related to property loss, torts and errors and omissions. The Authority has purchased commercial insurance for claims relating to general liability and property/casualty claims. Settled claims relating to the commercial insurance did not exceed the amount of insurance coverage in any of the past three fiscal years.

NOTE 8 – ECONOMIC DEPENDENCY

The Authority received approximately 55% of their property tax revenue from one taxpayer. Due to the significance of this revenue source to the Authority, the Authority is considered to be economically dependent.

Required Supplemental Information Budgetary Comparison Schedule - General Fund For the Year Ended June 30, 2008

	Original Budget		Final Amended Budget		Actual		V	ariance
Revenues								
Local sources:

To the Authority Board City of Evart - Downtown Development Authority City of Evart, Michigan

In planning and performing our audit of the financial statements of the City of Evart - Downtown Development Authority (Authority) as of and for the year ended June 30, 2008, in accordance with U.S. generally accepted auditing standards. We considered the City of Evart - Downtown Development Authority's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a significant deficiency and other deficiencies that we consider to be material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A deficiency in design exists when a control necessary to meet the control objective is missing, or when an existing control is not properly designed so that even if the control operates as designed, the control objective is not always met. A deficiency in operation exists when a properly designed control does not operate as designed or when the person performing the control does not possess the necessary authority or qualifications to perform the control effectively.

A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with U.S. generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected. We consider the following deficiency to be a significant deficiency:

Financial Reporting

As part of our consideration of the internal control over financial reporting, we as auditors are not allowed to be considered to be part of City of Evart - Downtown Development Authority internal controls. In taking this required position, we must consider whether the Authority has the ability, on its own, to monitor and report financial activity in accordance with our professional standards without auditor involvement.

The Authority uses accounting software as a management tool to monitor the financial status of the Authority, to facilitate the preparation and amendment of budgets and to compare budgeted amounts to actual results. In addition, the Authority demonstrates the ability to report fund level activities and report on certain fund level note disclosures. Due to the complexity of the required government wide financial statements and related note disclosures in accordance with GASB 34, the Authority does not maintain personnel who can properly report in accordance with U.S. generally accepted accounting principles without auditor involvement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. We believe that the following deficiencies constitute material weaknesses:

Uniform Chart of Accounts

As required by the Michigan Department of Treasury, the Authority should be using the Uniform Chart of Accounts as required by MCL 141.421. Currently the Authority is using a chart of accounts assigned by the accountant. We recommend that the Authority contact the accountant and communicate this requirement.

Donations to Non-Profit Organizations

The Michigan Constitution prohibits the donation of public funds to a non-profit organization. The Authority made an expenditure during the year that would qualify as a donation due to the Authority not receiving "value-for-value" for the expenditure. We recommend that the Authority review the legality of questionable expenditures before disbursing that payment.

This communication is intended solely for the information and use of the Authority Board, management and others within the Authority and is not intended to be and should not be used by anyone other than these specified parties.

To the Authority Board City of Evart - Downtown Development Authority City of Evart, Michigan

We have audited the financial statements of the governmental activities each major fund and the aggregate remaining fund information of City of Evart - Downtown Development Authority for the year ended June 30, 2008, and have issued our report thereon dated December 10, 2008. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter December 10, 2008d June 9, 2008, our responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U. S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our correspondence about planning matters on June 9, 2008.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by City of Evart - Downtown Development Authority are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2008. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management's estimate of depreciation is based on estimated useful life of fixed assets. We evaluated the key factors and assumptions used to develop the estimated useful life of fixed assets in determining that it is reasonable in relation to the financial statements taken as a whole.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

To the Authority Board City of Evart - Downtown Development Authority December 10, 2008 Page 3

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management.

Management has corrected all such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 10, 2008.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

To the Authority Board City of Evart - Downtown Development Authority December 10, 2008 Page 4

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Authority's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Authority Board, management and others within the Authority and is not intended to be and should not be used by anyone other than these specified parties.
